MEMORANDUM FOR: Lt. Colonel John V. Greenbach  
FBI  
Maple Avenue  
Bellmore, L.I., N. Y.

FROM: Maj. Lawrence W. Lowman

Reference is made to your July 3rd memorandum regarding the 90-foot poles that we discussed. It would seem reasonable to assume that poles delivered to us were ours, when we already had some on order and the poles were left there, as I understand, for a month.

However, since the poles were ear-marked for the Signal Corps we will have to get them four more, have them delivered and pay for them. I suggest, if you have not already done so, that you get in touch with RCA Communications, either at River Head or Broad Street and see if they can furnish or get the poles for us. See how this compares with the pricing you recently obtained and buy the cheapest, getting them delivered.

Lawrence W. Lowman  
Major, AUS
