1. An incident similar to the type described in reference memorandum was reported to us last November by [redacted]
2. At that time [redacted] had two men working for him in connection with his PBBLOOM distribution, passing out PBBLOOM's in railroad stations on the WSCORNY borders. One of these men, while distributing PBBLOOM's, was approached by an HBREBEL resident early in November and asked if he were interested in buying uranium ore. [redacted] man indicated that he was interested, agreed on a date when the man should return with the ore, and reported the incident through Nygaard to the police.
3. The HBREBEL resident returned about a week later, with a second man; they were taken by [redacted] man to a pre-arranged cafe where a buyer was ostensibly waiting, and arrested for questioning. The two told conflicting stories to the police about where they had been that morning, but because of insufficient evidence for arrest were released by the police the same day.
4. One of the men claimed that he had come to WSCORNY to be able to work for DTLINEN in HBREBEL, and gave a DTLINEN reference number. A check was made by the police with DTLINEN which had recorded him as a visitor to the overt office about two weeks previously; and DTLINEN was informed of the uranium incident.
5. The ore in this case was tested and found to contain uranium, but of negligible value.
6. No further incidents of this type have been reported to DTRULER and in no case have staff personnel been approached with such offers.
