Hearings scheduled begin here Wednesday. K seeing Adenauer in Bonn tomorrow.

Most recent list submitted to State Munich (and through them to Friends Frankfurt) for clearance included: Durcansky, main National Front (Bulgarian) character, Pekelsky, main Iron Guard character, and Chief of AEN. Conversation this afternoon here between Friends Frankfurt representative and [] plus [] apparently led to all above names except Durcansky being stricken from list, Friends Frankfurt representative having told them his files indicated all of them having been involved in such major Nazi collaboration as to make it likely they could be exploited successfully by Communist propaganda. He used in this connection excerpt from Prague propaganda being sent you separately in clear. [] and [] want more details on Durcansky, particularly as to his having been indicated as war criminal. They saying that some of K group had met him and were "impressed" by him. We now attempting to get this material.

In spite above we, of course, by no means feel danger avoided.

Role of Bonn Foreign Office liaison officer still unclear.
