Operational/UPSWIND/CART

LCFLUTTER Material

ACTION REQUIRED: See Paragraph 3 Below

1. Since his return from UJ-DRACO VII, @ FRIESEN has mentioned several times the very favorable impression he gained from KUSODA's LCFLUTTER demonstration. Being an old police official as well as an active LCIMPROVE officer, @ FRIESEN is now interested in introducing the machine to UPSWIND for operational use.

2. As a first step, @ FRIESEN is writing, as time permits, a study of various uses to which LCFLUTTER could be put in UPSWIND's work. This he intends to present to UTILITY. He has informally asked if we could provide him with any texts or handbooks on the machine which he could use in connection with his paper.

3. Undersigned recalls having at one time seen a book written by a police official on the use of LCFLUTTER. This would be appreciated together with anything else KUSODA might know of. Anything which has been published by KUBARK and could be released to UPSWIND would also be welcome.

4. @ FRIESEN is aware that LCFLUTTER has once been considered by UPSWIND as an operational aid. He feels that the matter should be brought up again, and thus is taking the burden on himself. POB welcomes his initiative and hopes that the attempt will be more successful than the last.
