

Att A to EGMA 55443, 11 July 1961 (meeting 22 June 1961)

- C. FLEMING said that although he did not know the details, UJERUG also was handling a weird source in the DDR with alleged MFS contacts. FLEMING said UJDRUG meets the source in question in West Berlin. FLEMING said that another interesting aspect was that whenever UJERUG went to West Berlin to meet the source in question he took along UJDRUM to provide countersurveillance. FLEMING said one could have the nasty thought that the presence of UJDRUM could also make certain that no UPHILL surveillance assets could be used without UJDRUM and UJERUG being aware of the fact - since UJDRUM like UJERUG knew them all.

Att B to EGMA 55443, 11 July 1961 (meeting 20 June 1961)

- 3... [ ] also produced a copy of a memo from REIFER asking for KUBARK evaluation of material received from an UPHILL source (Banane). [ ] said that he had done some checking and presumed from FLEMING's previous comments this must be the East Zone source FLEMING had indicated UJERUG was handling - and in which UJDRUM provided protective surveillance for West Berlin meetings. FLEMING was of the opinion this was not the case. BERNHARDT thought it might be and both said they would check further. (Comment: Subsequent developments indicated this was indeed the case.)
