

Att B to EGMA 55443, 11 July 1961

CALIKAK Coverage on Friedrich FRANK - The latest intercept was reviewed because of an interesting conversation between FRANK and someone with the alias ROBALI or RABOLI - an obvious UPHILLER. (Neither BERNHARDT nor FLEMING could say who ROBALI/RABOLI might be, but hoped they could figure it out after listening to the tape.) The conversation in question included references to HARSTER and DEFFNER. It also included some advice from FRANK to ROBALI/RABOLI concerning his SD past, with obvious references to various difficulties UJDROWSY has had with UPHILL as a result of his SD background having come out.

Att C to EGMA 55443, 11 July 1961

FLEMING...said that ROBALI/ROBALI, whom he is virtually certain is van der WAALA, uses the alias PETERSON. He also said that PETERSON did not work in the same Munich Dienststeller in which FRANK is employed.
