Bonn Contacts of Werner Frans GLASHAPP

RE: EGBA-42106, 6 June 1957

1. Since the preparation of referenced dispatch, we have continued to investigate the activities of Werner GLASHAPP through all facilities available to us. Although we have determined that he is directly involved with a variety of highly questionable West Berliners, we have not, as yet, been able to establish any clear connection between him and the MFS.

2. We have long known that GLASHAPP is a regular visitor in Bonn, deals with official Bonn ministries in connection with federal building contracts and uses a Bonn letter drop. Despite this, we have not been able to develop any information about his contacts in Bonn. A recent intercept on his phone, however, may provide a means for developing information regarding his Bonn contacts and activities. To wit: On 13 March GLASHAPP talked with a female from Bonn who uses the telephone number 27018. Although the conversation consisted mainly of double-talk and was, therefore, for the most part unintelligible, the female involved clearly is a close associate of GLASHAPP's and is knowledgeable regarding several of GLASHAPP's contacts. In view of this, we request that you check with CIS in Frankfurt in an attempt to determine the name of the subscriber to the above number. We are hopeful that it may lead us to an identification of GLASHAPP's Bonn letter drop and provide us with an opportunity to request coverage. We continue to believe that GLASHAPP very likely is an Eastern agent.
