Dear Mr. Kork:

I have received your letter regarding a remark in the Washington Evening Star of May 16, attributed to me.

It is not an accurate quotation. Had I been quoted fairly and accurately, it would have expressed my concern that the Central Intelligence Agency, which is primarily responsible for foreign intelligence, appeared to have extended its activities to include infiltration of organizations in this country. It is my opinion that the FBI is primarily responsible for matters of this kind.

Sincerely yours,

  
Eugene J. McCarthy
