MEMORANDUM FOR THE RECORD

SUBJECT: Further Analysis of HEINE-RAUS Case by [ ]

1. [ ] Original analysis of the HEINE material performed in March and April 1965 resulted in a lengthy report dated May 1965. This report analysed the most striking elements in HEINE's background which proved conclusively to the writer that HEINE was a recruited RIS agent. The report was later furnished to RAUS' lawyers on a loan basis and they made good use of it. Copies of it were made available to Office of General Counsel, and Mr. Houston showed it to Mr. Helms at the time when HEINE-RAUS was surfaced in the press in April 1966.

2. In the interim since [ ] first worked on this case we have received a quantity of additional material which should be analysed by someone expert in KGB MO and legend preparation. Accordingly, it was agreed with Chief, SB/CI that [ ] could be made available for this purpose after his return from his Far East TDY.

3. [ ] The following material is being provided for use in this project:
