Following is a brief summary status report on HEINE-RAUS action:

1. Court Action: Next hearing on Motion for Summary Judgment in early September. Judge Thomsen may render his decision shortly thereafter, and it could go either way. - c) Romulus Mandel: After long discussion with Larry Houston, we decided against seeing him. (If he were put on the stand, the door would be opened for Raskauskas to demand that we produce the other CIA officers who debriefed HEINE in 1957. They are [] [] and [] [])
