

21 January 1949

SUBJECT: STROBL - HODOSSY, Paul.

TO: Commanding Officer  
7821 Composite Group  
APO 407 US Army

1. CIC Austria has passed on the following information concerning subject who works for Org. 114 as Paul STROBL: "HODOSSY - STROBL is working with NADAS, Lajos residing in VOEKLAERUCK (upper Austria). Through NADAS, STROBL is in contact with BONIS, Fnu and CSETENYI Lazlo who is the chief of the Hungarian D.P. Section Information Center, Goethestr. 63 LINZ. Both persons are supposedly trying to create the nucleus of a new Hungarian Army which would be recognized by the Western Powers. NADAS is assisting BONIS and CSETENYI in this effort. Further more NADAS is in contact with a General HENNY now living in the French Zone of Austria. HENNY is connected with the former Hungarian General ZAKO (leader of the "KOPJAS" an intelligence group formed originally by SKORZENY, head of the Jagdverband Sued Ost)."

2. Recommendation:

a. That the org. leader of Org. 114 be given the above information for discussion with STROBL.

b. That any further exploitation of General ZAKO by STROBL be stopped. Any thing of value from this source is being obtained by Org. 13. ZAKO is also maintaining connections with the British, French and CIC.
