1. Per paragraph 2, reference, examination of Station files shows that the separate cover attachment numbered for OSSA-8580 was mistakenly done so. The dispatch to which it belongs is OSSA-8583, 12 May 1959. We regret that this inadvertent error caused understandable confusion at Headquarters.

2. It should be clear from OSSA-8583 that neither of its identities, described in the separate cover attachment in question, are previously established internal contacts. Identity B of it is a new operational development.

3. Further operational discussion with A/15 establishes that the husband of the Latvian woman mentioned in paragraph 2, OSSA-8583, 12 May 1959 is

Leons *CUIBE (Latvian ~~refugee~~ priest. Residing at Bärnbrogatan 60 C, Uppsala, Sweden)

The only Station trace on him is contained in a USIS memo, dated 9 July 1957, listing IBS Radio Stringers in Sweden. The relationship between A/15 and the CUIBE family is very casual.
