1. In view of the attached intercept and others in the file on Dr. Wilfried KRALLERT, it is believed that publications of the Hungarian Academy of Sciences are already available to KUKNOB. However, should this not be the case it should not be difficult to set up a procurement channel for these publications, either through Dr. KRALLERT or by a similar operation. It is not known here if KRALLERT is being used by any AIS agency, but interest was shown in him in MAVA-9906 and MGLA-6999.

2. It is requested that Headquarters check with KUKNOB on the availability of these publications and advise the field of any requirements.

PUBLICATIONS OF HUNGARIAN ACADEMY OF SCIENCES

Referring to your letter of 10 March 1953 we beg to hand you three copies of our newspaper and periodical catalogue which states the prices in Swiss francs.

We beg to draw your attention especially to the scientific "AKTA" publications of the Hungarian Academy of Sciences. The Hungarian Academy of Sciences publishes the results of the research work done by Hungarian scientists in all fields in various foreign languages in order to make these findings accessible....

We hope that you will be interested in these purely scientific publications and will honor us with your order....

Note: 1 catalogue attached.
