TO: MOB  
FROM: POB  
SUBJECT: fnu MILLER

1. We initiated a check with ZIPPER on subject under the pretense that he had come to the attention of CIC through his interrogation activities and they wanted to determine his connections and reliability. ZIPPER has replied that subject is indeed one of their interrogators (first name Werner), and that they have requested a statement by the field agency about him.
2. Crossing their request to the field was a report from the field in which it was stated that subject had been contacted by an "American civilian intelligence agency with headquarters in Washington" and that if the initial contact was exploited, the field organization intended to drop subject. We wondered, but did not ask the organization, how subject as an interrogator could have developed a full blown net in Poland. ZIPPER interrogators are under strict orders not to indulge in any type of intelligence activity other than their legitimate interrogation work.
3. We will forward additional information when received.
