ARLING Immigration

ATTN: REDSOX-MUNICH

RECORDED

1. The subject's immigration permit procedure now has reached a stage where it is possible to expect a final decision by the early part of January, 1953.
2. Enclosed are two (2) copies of affidavit, which ARLING should fill in and sign in his true name, and witnessed by the case officer. One of the copies should be returned to Headquarters and the other is for retention in the subject's file.
3. Headquarters requests that your station pouch all the material assembled by ARLING at your station to the home office, regardless of the form or shape it is in. Any material which has been given out to other branches of your station should be assembled and pouched together with the material now physically in your possession. Likewise, it is requested that all ARLING personal files be pouched for Headquarters' examination, even though they may represent the subject's personal property.
4. It is hoped that the news of approaching immigration possibilities will brighten up the morale of the subject - the reward he has well earned.
