Translation of Dmitry BRUNST FOREMSKY Testimonies - German Documents 1944

Trial Testimonies of leaders imprisoned by Nazis for anti-German activities 1944

Berlin - 31 October 1944: In re documents found in FOREMSKY's quarters (p. 7):

The Memorandum with the title "Shtab P.O." ("Staff P.O.") was also drawn up by me. "P.O." means "operational work." I was occupied with this question since, beginning with the spring of 1944, in the Executive Bureau it was decided to expand operational work. The plan laid out by me was not fully carried out. Evidently, BAYDALAKOV knew what was going on and I informed him (sic).

The separate notes with this memorandum indicate the following inter alia:

o Vikt Alekse: This is V. A. LARIONOV, working in the Ministry of the East, whom I thought to enlist as a consultant on intelligence questions, in particular for political clearance of persons who might be recommended by our organization for work in various establishments, etc.

Text of Memorandum found in Quarters of Dr. BRUNST lists, under Staff "P.O.": intelligence: Vikt Aleks. (p. 8)
