FROM Chief, EE

SUBJECT { GENERAL - Operational/CART/HIWAY
SPECIFIC - (Dr.) ~~Bell~~ LISZKA

DECLASSIFIED AND RELEASED BY
CENTRAL INTELLIGENCE AGENCY
SOURCES METHOD EXEMPTION 3B2B
NAZI WAR CRIMES DISCLOSURE ACT
DATE 2006

REF: EGMA-20450

1. From the material at hand dealing with Subject, Headquarters is inclined to agree with your estimate that LISZKA is far from an ideal Double Agent candidate. To our minds his motivation will probably always be somewhat lukewarm, and concentrated on ensuring protection for his family and himself. We feel that unless some future development forces this case into the category of active agent handling, your technique of arranging for LISZKA to notify you of events and turn in self-debriefings as necessary is entirely adequate for our current purposes.

2. We are sending as attachments hereto translations of the letters forwarded as Attachment G to Reference. They appear to conform to LISZKA's account of events. The letters forwarded as Attachment N are also returned in translation; they do not appear to be of operational interest. However, we commend to your attention the writer of these items numbered 14015, 27075 and 37457; she appears to feel a particular attachment for LISZKA. We cannot tell how this connection might possibly bear on a potential Double Agent operation, but do note that LISZKA has not felt it necessary to inform you about the writer of these letters. (From their content, one can believe he might not have wished to draw attention to them; [] might wish to peruse these items on his own time, so to speak!) The letters themselves contain sufficient identification data to enable you to have the writer investigated should you, or TPFEELING, so desire.
