Due to the length of the Spiegel article and the matter of making time available for [C] [S] to translate the entire text, I have, unfortunately, had to settle for what I consider a rather well done summary of the principle points. Actually, insofar as Greece is concerned, I have tried to emphasize the items that relate particularly to that problem. As you will see, however, you get a very good picture of the entire history of this incident and will find it easy to relate to the present cable traffic. If this does not satisfy your needs, I will be happy to have [C] [S] do a complete translation.
