October 15, 1959

Dear Kate & Mike:

Thank you for your letter of September 30, 1959, and beg pardon for the delay in writing to you. The delay was caused by being myself sick for few days and later I suffered an auto accident and the troubles I had to go thru with relation to it.

From your letter I see that you put together two and two and as I understand you are convinced that I did not make a foul play about this business, and your deductions are correct, but I can not help and why I wrote you previously.

The uncle talked, I believed, and I never expected that they will turn that way, I repeat, my only fault was that I did not ask advance money.

I can not indicate any person to inquire further, since I put this matter for settlement all connection have been cut off, however, there is one possibility to start from the other and that is to find out the Boston representative and thru him go to the source, because I am also interested to prove you my honesty, although my naivete will always be on my conscience what I regret very very much.

Best regards to everyone, and remain,

Sincerely yours,

*Cocaine*
