Operational

Colonel Lajos NADAS

Reference- MAS-W-362

1. At the time SALZ-300 was written the eight traces on NADAS in MAV-W-2854 were over twenty months old, and NADAS' status had changed from that shown in the last trace (MGL-A-3168, 8 August 1950) to that of a civilian employee in a sensitive USFA section. It was our thought that Headquarters' researches into the MBEK in the past year or so might have produced some as yet unpouched material on NADAS which might be helpful to us or to theater security.

2. As is frequently the case we had no definite idea as to what, if any, use we might be able to make of NADAS. It was not considered beyond the realm of possibility that a formerly influential MBEK person known to be unsympathetic to ZAKO might now, if he had indeed severed his ties to ZAKO and KORFONAY, be of some interest or service to the Salzburg Base.
