1. Forwarded under separate cover is the Seventh S.I. letter from Pinetree. It appears that Pine has been hearing HTGrubby while wintering in the Identity (1) area. This is the first concrete evidence we have had that HTGrubby is actually being heard on the other side of the LCFlake frontier. In our last S.I. letter to Pine we requested that they send us full details on the reception of HTGrubby in their area.

2. In the future we intend to give little Pine a plug over HTGrubby as apparently this is quite a morale factor as far as they are concerned.

Subject: 7th S.I. Letter from Pine

To : [ ]

From : [ ] ...

Following is a translation of the 7th S.I. letter from Pine, it arrived in Greece on April 7, 1952:

"Letter No. 7. Date March 25, 1952. Begin. We are all well except for Dula Koci who presently has the same sickness which he once had in Germany. Please send some penicillin. The month of May approaches and we are ready to continue our work as soon as the snow melts. It was a bad winter. The Pine group is the only group who has proved itself more in its work than any other group and we ask why hasn't the Pine group been mentioned on the Radio of the Committee for Free Albania? Regards from all, Small Pine Finish.
