MEMORANDUM FOR: OD/GO

VIA: SE/CPP

SUBJECT: Daily Progress Report for Thursday, 30 October 1952

1. BGG ONV OY

The three-man team which entered Bulgaria on 8 October (reported in Report of 17 October) returned to Greece on 28 October according to the estimated schedule. (IN 49030).

2. BGFIEND

A report from Munich states that the interrogation of Mr. Jovan Mama, who recently defected from the League of Albanian Refugees in Prizren and fled to Austria (reported in Report for 20 October) indicates that, although he has no factual information concerning Yugoslav plans for Albania he does possess a great deal of valuable information relating to Yugoslav--Albanian affairs. In addition to complete information on the background of the Communist activities in Albania from 1941 to 1950 and the affairs of the Prizren League through May 1952, Mama appears to have information on the attitude of the Yugoslavs who are directing the Prizren League, the attitude of the Albanian exiles in Yugoslavia toward Yugoslavia and the National Committee for Free Albania and their feelings about Yugoslav aims, and the increased difficulties the Yugoslavs are encountering in controlling the exile group. It has been recommended that Mama be taken to Athens for further interrogation. (IN-49024)

Athens reports that the Willow Team exfiltrated on 27 October. This team was originally infiltrated in June and has since returned regularly to service dead drops established at that time. (IN-49083). (Willow last reported in Report for 22 September)
