MEMORANDUM FOR: []

SUBJECT:

Discussion with [] 10 January 1952

In addition to the discussion of the implications of [] decision to commence propaganda supply drop operations at the expense of fulfilling the British commitment in respect to leaflet drops, you may wish to bring up the following other matters:

1. Our position in regard to the location of the headquarters of NCFA has been clearly stated in a recent letter which has been dispatched to [] A divergence of opinion exists on this matter, and an opportunity to discuss it further will develop during your next trip abroad in the event [] wants to raise this matter again.

2. Our [] has recently advised us that 33 Albanians have moved from Malta to England for training. It was also reported that Zef Pali was going to speak to this group upon their arrival. These facts may be used to initiate a discussion of British training plans for 1952, if you wish to inquire into this matter.

3. This office is disappointed to learn that SIS is unable to undertake any acts of sabotage against cargo which the British freighter "Marietta" may transport to Albania. We fully understand [] problem, but believe it is most unfortunate to pass up this opportunity to initiate a program of economic warfare and also pass up the opportunity of introducing propaganda material into Albania. In any event, we are looking forward with anticipation to the reports on Albania which the Captain will undoubtedly submit.
