Training Literature

1. The training literature sent out under the heading "Stay-Behind Agent Training" seems to be first rate.

2. If you have not already done so, it is requested that someone put together a pamphlet on the subject of ports and harbors. The Navy here complains that agents dispatched to Soviet-controlled ports and harbors for the most part waste their time on secondary targets, e.g. identification of Soviet vessels in the ports, and pay very little attention to matters considered to be of importance to the Navy.

3. Such a study would be of considerable immediate use to BOB, EOB and POB.
