<p>1. The above references all concern the case of RNOUTURN, apparently a QKACTIVE agent located in Paris, who was spotted by Identity 1 for a use which did not conflict with his QKACTIVE mission. Subsequently BGAETRESS also authorized the <input type="checkbox"/> to make contact with RNOUTURN for similar spotting purposes connected with the REDSKIN program (Reference A). For reasons having no bearing on BGAETRESS interests, the <input type="checkbox"/> has decided not to proceed further with the latter contact.</p> <p>2. We raise this instance with headquarters only for the purpose of pointing out that when the matter was referred to us by the <input type="checkbox"/>, we were in the anomalous position of knowing nothing whatever about RNOUTURN or the existence and nature of any QKACTIVE facility in the geographical area of LCPIPIT's jurisdiction.</p> <p>3. In this same connection - though totally unrelated to the RNOUTURN case - we recently had occasion to discuss with GRELSE, RNPNANGE, and RNLEXICAN certain proposals put forward by members of the QKACTIVE Munich office with respect to activities against LCOUTBOUND. As headquarters is also aware, QKACTIVE maintains continuous contact with LCGARFISH, an organization with which some LCPIPIT agents deal regularly; and the problem dealt with in DIR 12179 (concerning the attendance of a QKACTIVE representative at FJHEARSAY) is not the first instance of such project impingement.</p> <p>4. Although it is by no means LCPIPIT's desire to take on any more monitoring responsibilities for BGAETRESS projects managed through other control channels, we believe that it might be desirable for headquarters to provide us a general briefing on the QKACTIVE program and personnel in this area and keep us informed on a fairly regular basis of activities which may in some way affect LCPIPIT project assets and plans.</p> <p>5. This dispatch has been shown to the <input type="checkbox"/> <input type="checkbox"/></p>
