SUBJECT CAMM/DISCHIG/INACTIVE/Operations Security Processing of PBCHORD Applicants				

ACTION REQUIRED - REFERENCES

Ref. EGMA-59585 dated 6 August 1962

Pass to

1. No action was necessary within Headquarters when the reference was received, as no clearance request had been submitted by KUNOLF on either von Imhof or Moenz.
2. For the past eighteen months it has been KUNOLF practice, with few exceptions, not to request a Proprietary Approval or Covert Security Approval on a PBCHORD applicant until receipt of a PBCHORD Personnel Action Report showing the actual hiring. This procedure has resulted in the near elimination of the processing of clearances on persons never hired, with consequent saving of many man-hours of unnecessary work.
3. We believe that is under the impression that the new clearance procedures followed for TPFEELING applicants are being used for PBCHORD candidates. Such is not the case, as the six-month probationary period for new PBCHORD employees gives sufficient time for KUSODA to process a PA after the hiring and still advise Munich in case a disapproval should result.
4. Unless feel the results of this system of delayed processing of PA's is unsatisfactory, we propose to continue it.
