TPLINGO/PBCHORD Visitors to Stockholm

REF: OSSW-8946, 19 May 1965

We would appreciate being informed in the future of impending visits by members of TPLINGO, PBCHORD, and TPFREILING to this area together with a list of their intended contacts if this is feasible. It is not our intention to proliferate paper needlessly, nor do we expect that we will spend much if any time in personal interviews with them, but we believe they should have the benefit of our file checks before making contacts for both their and our sake. As indicated in previous correspondence, it is very doubtful that the Swedish services have any misapprehension about the true sponsor of these organizations, and in fact they probably believe that the degree of KUBARK involvement is even greater than it actually is. For our mutual benefit we would therefore like to be kept abreast of their activities in this area.
