1. The essential reason for delay in answering your dispatch of 29 April enclosing the plan for mobile radio operation is due to the fact that we have given a considerable amount of study and discussion to the proposal. It is a well thought out paper.

2. There are a number of considerations that enter the picture and a number of questions we should like to put to you with reference to it, but we think this is not the time for it since the entire policy of black radio is still under review here. We know that the technique is being used by the opposition forces, but the advisability of our engaging in the work is still faced with some doubt.

3. The plan which you propose will be brought out again for consideration when a determination of policy is made here. In the meantime, our thanks for submitting it. You will be advised at once when policy is laid down.
