ZIPPER agency being queried for possible explanation. When the attachment to EOLA-249 was received from ZIPPER, we followed up on the case and reported our findings in EOLA-250.

2. After receipt of EQM-1812 we had another conversation with ZIPPER's KOZ and received the following answers to our questions.

a. V-5850 is identical with V-4261. He does not use the number 4261 any longer. The reason for the change was that ZIPPER decided to try to give all sub-sources their own agent numbers rather than a number identical with that of the leader plus a decimal point and simple numerical series, and in the process many agent leaders also received new numbers. This happened in the case of V-5850. Since the agent ordinarily does not know his own "V" number the chances are that he is unaware of the change, it is a change that takes place only on paper and has no effect on his salary. V-5850 was born on 6 March 1917 in Berlin. He is 178 cms. tall, has blue-grey eyes, blond hair and a scar on the right side of his throat.

b. V-4261.1 was dropped by ZIPPER on 23 May 1952. He has nothing to do with ZIPPER at this time. Information on our card indicates that V-4261.1 lived in Woltersdorf.

c. V-4261.2 was born on 14 April 1889. He was arrested in the Sovzone in July 1951. The latest information in ZIPPER files (1951) indicates that subject is still in jail.

d. V-4261.3 was dropped in July 1951. He was born on 2 March 1918 in Kammersdorf. He is described as tall, with blue eyes and dark blond hair.

3. We hope that this information will rectify rather than add to the confusion in your files.
