References

- A. HQA-22879, 13 August 1953
- B. HQA-5236, 27 August 1953

1. Reference A has been thoroughly reviewed at MOB, and we agree that there is less than a 10 per cent chance of success in the proposed operation. In view of the current work load here, we do not desire to undertake playing around with HUBER or to undertake any operation aimed at SANITZER.

2. We agree with POB's statement in Reference B that this is a good secondary type lead to pass to ZIPPER. However, [] as informed us that the Austrian Desk of EE has an interest in the SANITZER case. Please inform us as soon as possible whether there is any objection to our passing the HUBER and SANITZER information to ZIPPER through POB.

3. If there is any objection to our complying with the request in HQA-5236, please state what if any disposition should be made of this lead, considering our statements in paragraph 1 above.
