SCHMALSCHLASSER's "Anleitung Fuer Befrager,

Ref: NKLA-10696

1. It is our guess that the microfilmed study forwarded with reference is probably identical with the "Guide for Intelligence Interrogators of Eastern Cases" published by ECIC and forwarded to Washington in August 1949 under NKLA-2908. SCHMALSCHLASSER contributed to that work which was distributed among all bases in Germany. Unfortunately a copy of that guide cannot be located here.

2. There is interest here in obtaining one of the four studies referred to in the film as the "Foreign Department and Counterintelligence Department of the NIS". The undersigned does not believe, however, that any lengthy search for this report is warranted. It is our belief that such a report was also disseminated by ECIC. Again unfortunately it cannot be located here. Perhaps a quick check of the Frankfurt RIB file would turn up the report and transmittal letter numbers.

3. It seems to us that subject's knowledge of the RIB should have been completely exhausted by this time. []
obtained vast amounts of material which was utilized by []
in one of the first comprehensive studies of the RIB put out after the war. Subsequently subject was debriefed further by ECIC and such reports issued as the "NIVD and NIBS", "Index of Terms Used by the RIB", "Experiences of Leitstelle III Ost", etc.
