1. We discussed GRAMM's bona fides at considerable length and why the Czechs would be interested in running this case. It was noted that there are a great many unanswered questions which we hope @KUTZBACH and @NABINGER will be able to resolve by their visit to the Dst. concerned. I asked @KUTZBACH about the results of the graphology analysis. @KUTZBACH said that they were very bad and that if they were obliged to base their judgment of GRAMM on the graphology analysis alone they would not be able to trust the agent.

2. The remainder of the time was spent in hashing over GRAMM's background and his contacts with Antos.
