1. This case seems to me to have got somewhat out of hand.
2. It is fairly clear that subject is a creature of any agency approaching him. The intelligence results, such as they are, are available to POB via Zipper.
3. Without the benefit of [ ]'s statement on this, it appears from here that it is not correct for [ ] to present CANLET II with information obtained confidentially from POB. This seems to constitute a breach of confidence, which I think [ ] would be the first to regret, although one must be in sympathy with his desire to break down sub-sources.
4. I am therefore requesting that COS, Berlin instruct [ ] to break all contact with CANLET II.
