This will confirm our report that the FBI interposes no objection to the proposed interrogation of the subject alien.

The FBI has requested to be advised if information of an intelligence nature which may be of interest to that Bureau is developed as a result of the contemplated interrogation.

The FBI conducted a special inquiry investigation of subject in 1948 in connection with his immigration to this country for permanent residence. Informants considered him to be an outstanding scientist in aero-medicine and is well known internationally. One informant, who had known subject in Germany in 1923-29, said subject had expressed the opinion that the Nazi party had done a great deal for Germany. He had said that prior to Nazism the Jews had crowded the medical schools and it had been nearly impossible for others to enroll. The informant had not seen subject since 1929. All other reports regarding subject were favorable.
