

SECRET

10 December 1957

MEMORANDUM FOR: SR/GOP/FI

SUBJECT : S/W Message "A" to AECOB/7

1. AECOB/3 stated in his last message that because of fear for his personal safety, triggered by news of apprehension of AECAMBARO/2, he buried his W/T receiver and would not use it until he would feel more secure again. Since we do not wish our communications with him to lapse, and do not know at this time whether he had recovered his receiver as yet, in addition to our regular W/T transmission to him, this time we are generating our alternate communications system, that of S/W recovery which he was taught by AECAMBARO/2 but had no occasion to employ before.

2. The attached message is sent in order to:

- a. Acknowledge receipt of agent's last message.
- b. Request agent to provide a letter drop for domestic mail and to elaborate on his present status.
- c. To inform agent of forthcoming support.

3. It will be observed that in essence this S/W message is similar to the W/T text which we had requested Frankfurt Operations Base to transmit, however this message has been reworded for security reasons.

4. For further information, please contact [ ] or [ ], room 1060 J building, extension 3582.

[ ] Chief, SR/2
