PERTINENT INFORMATION REGARDING FINAL TERMINATION

SUBJECT: Sven Treuhoff

1. Treuhoff was terminated finally on 7 April 1954. A dispatch outlining termination is being prepared and will be forwarded to Wash soon. HARVARD will be on the distribution of this dispatch and will receive copies of the quit claims and secrecy agreement that Treuhoff signed. The original will be maintained in Security Branch files in Treuhoff's agent dossier.

2. As you know, a certificate verifying Treuhoff's employment in design work with the U.S. Forces, Germany was given to him for inclusion in his Lutheran World Federation dossier. Now that Treuhoff is no longer employed, it might become advisable later to forward a second letter to the LWF stating that he was terminated due to a reduction in fund allocation, etc. on 7 April 1954. Treuhoff is currently looking for a job on the German economy and will notify HARVARD when he finds one. If it is deemed advisable to submit such a letter, additional details regarding his personality, etc. can be obtained from the forms I submitted on him with the security assessment for the new refugee relief bill.

3. As pointed out in a previous memorandum, Treuhoff was LCF LUTTERED after I submitted the security assessment for the new refugee bill to you. Thus, the "special technical interrogation" statement is not included in these forms as yet.

CONTACT INFORMATION: Treuhoff will call the number given to him by [] and will ask for same. Only the time of meeting with [] will need to be arranged over the telephone, while the place will remain the same- in the parking lane of the street near the front entrance to the 97th General Hospital. Treuhoff might say "bei dem Krankenhaus" on the telephone just for clarification.

5. Treuhoff's agent dossier is maintained by the Security Branch, and it is always available to HARVARD. If any additional problems arise, the undersigned can be contacted in Berlin through the Security Branch.

* IMPORTANT: The undersigned is known to Treuhoff only by the alias [] [] Treuhoff has a good idea that it is a cover name, Treuhoff knows [] by true name and also [] by true name.
