REF : ECLA-3378 *UJ Drollery Master List*

1. We were pleased to receive the data on the various UJ DROLLERIES forwarded in reference. This information has been incorporated into the appropriate files. In several of these cases, the agents involved have never been identified by true name. Now that they have been dropped, perhaps ZIPPER will be willing to provide us with a short biographical statement on these persons. We would be especially interested in learning the correct identities of the following.

V-3090 and ALEXANDER of UJ DROLLERY 375; V-13912 of UJ DROLLERY 505-B; 3016 and BLAU of UJ DROLLERY 1200.

2. We would appreciate receiving further information on the arrest of UJ DROLLERY 10's TONNE. Was he jailed because of his work for ZIPPER, or for some other reason? Were TONNE's fiancée and DAHLIN also arrested? Naturally, the true names of TONNE, DAHLIN and 2954/RADLER would be a valuable contribution to our files.

3. Has V-2997 of UJ DROLLERY 1004 been dropped by ZIPPER, or is he merely on ice? Does he still have the same overt employment, and has he ever been interrogated by ZIPPER regarding his involvement in the disappearance of V-2996?
