1. In the course of checking field agent personnel cards against headquarters records, it was discovered that Identities A and B whom field records show as being cleared do not have operational clearance.

2. This office has in file the Form IX and field investigation on Identity A and has requested clearance. No background information is available on which to base a request for Identity B. If the case officer feels that a clearance is necessary for this individual, please forward PRQ I and II and field investigation. Upon receipt of these reports every effort will be made to expedite an operational clearance.
