every  
It is urged that effort be made to maintain and develop relations with MOH-009-123  
subject with a view to his participation in Operation ALCAHAZ (qv). HSC/Op11  
It is suggested that in briefing subject, it should be pointed out 23 Jan 47  
that his connection with us should not become known to any Allied  
Intelligence organizations. Before final approval to the resumption  
of the Operation is given, a detailed appraisal of subject's personal-  
ity, political leanings and change in attitude caused by his pro-  
longed detention is desired. His justified dissatisfaction with us  
should provide him with an excellent entre' into communist circles.
