<p>1. Fleming has provided the attached copies of the BDC traces on Karl-Georg WELLSHOENER as forwarded on two separate occasions by references. You will note that there are 11 pages in the later trace which do not appear in the earlier one and six pages in the earlier trace which do not appear in the later one. Those pages which are unique to one or the other trace are marked with a red "X".</p> <p>2. Fleming is mildly concerned that a lack of thoroughness by BDC personnel may result in significant gaps in the information received by CATIDE. We realize that there may be some simple explanation for the discrepancies in the two traces but would appreciate your checking BDC procedures. Please provide appropriate comments for Fleming.</p>
