http://1.usa.gov/1VY0Lst

-Success of mission was culmination of years of complex, thorough & highly advanced intel ops & analyses led by CIA w support of IC.

-Late 2010, intel linked a courier to a compound in #Abbottabad, Pakistan. Compound & main house had security features unusual for area.

-Odd features:

High walls with barbed wire

Double entry gates

No internet/phone connection

Trash was burned not collected

-Assault team trained on an exact life-size replica of compound w movable walls to prep for any internal layout they might encounter.

-The death of Usama Bin Ladin marked a significant victory in the US-led campaign to disrupt, dismantle, and defeat al-Qa`ida.

-Join us beginning at 1:25 p.m. EDT today as we tweet the raid on the Abbottabad as if it were happening today.
