MEMORANDUM TO MR. KIRKPATRICK

HR70-1

1. At the Staff Meeting this morning, Mr. Reber reported briefly on his Inter-Agency Requirements Meeting of yesterday. Terms of references were discussed for the formation of a Requirements Committee. It was decided that OO and State Department would screen with care the Service requirements that have been submitted to the Department of Defense to determine which ones could be handled by SO. SO will then analyze the selected requirements, and a final meeting will be held between the State Department, the Services, and SO to discuss competitive requirements and any other problems. Mr. Reber seems to feel that progress has been made, but that the final solution has not as yet been arrived at.
