Daily Staff Meeting

Thursday, 10 May 1951

HR70-14

Mr. Long reported that Mr. Reber is having a meeting this morning with O/NE on their requirements to determine how O/NE requirements can be integrated with the over-all problem. He indicated that O/RR was doing an excellent job in drawing up an "inventory of ignorance".

[redacted] stated that the Director agrees with G-3 that requests for covert support should go through the Deputy Chief of Staff for Administration and not through G-2.
