Director's Meeting

Friday, 13, July 1951

HR70-14

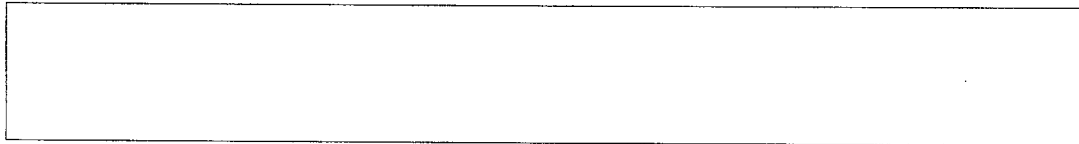

The Director spoke about NSC Senior Staff Meetings and said that Lay's office was becoming a little touchy about the Senior Staff and our attendance. The Director will attend with Dr. Langer on Tuesday and has asked the DDCI to take Dr. Langer with him on Thursday.

In regard to Mr. Reber's item in the log, Re: new personnel in G-2 after 15 July, and the possibility that this will simplify our dealings with them on scientific and technological intelligence, the Director said he thought it might be a good idea if Mr. Jackson and General Bolling dropped in on one of their meetings.

The DCI stated that when anyone came back from the field after a mental crackup, he should be interviewed by the DCI or one of the Deputies, and he feels that we should do everything possible for such cases. In this regard, he asked that a telegram be sent to the OSO man who has recently returned as a psychiatric case ([redacted] will get the name and address and dispatch the telegram.)

The DCI suggested that General Wyman and Mr. Wolf should get together on procedure for handling cases in the above category. He stated that the Senior representative in the field should anticipate such mental conditions as far as possible, then return personnel to the U. S. A.

Mr. Jackson reported that Gordon Grey might like to have Shane MacCarthy. If Mr. Gray makes a formal request, the Director will approve.

HR70-14

The Director spoke about sending [redacted] to Latin-America. Mr. Wisner is looking into this. The Director then mentioned the present troubles in Bogota and [redacted]
