Was extremely dissatisfied with Navy handling of flash item relating to submarine attack in Formosa Straits, and recommended that the DCI speak to Admiral Johnson on this haphazard method of informing CIA.

OSO [redacted] advised me that [redacted] who is going as Senior Representative to [redacted] by request of Mr. Dulles, did not have an Agency clearance, although he had previously had an Operational clearance. Advised Shef Edwards of this, who undertook to follow through. Edwards said that no waiver would be necessary.

Also informed Edwards of the waiver given respecting Brownell.
