## THE MILITARY SITUATION

- An Israeli aircraft was shot down by Egyptian surface-to-air (SAM) missiles today (1400 hours Middle East time). The aircraft crashed on the east bank of the Suez Canal, about 10 miles northeast of Ismailia. At least two SAMs were launched from the Port Said area, according to an Egyptian observer and UN Emergency Force patrols in the area. The Israelis have confirmed the loss to a UN patrol, but did not identify the type of aircraft downed.
- A UN Emergency Force patrol located near Adabiya south of Suez City reported heavy machine gun fire early this afternoon. Later, they indicated that an Egyptian truck had been hit near Israeli lines -- three Egyptians were killed, three were wounded and three escaped unharmed.
