MEMORANDUM FOR: Deputy Director for National Foreign Assessment
FROM : Deputy Director of Central Intelligence
SUBJECT : Briefing Papers for Camp David

1. At the outset of my briefing with the President today, I congratulated him on Camp David. He replied that the briefing papers he received from CIA had been superb. He was particularly pleased with the profiles of the major leaders with whom he had to deal. He commented that based on his experience "you don't need to change one word of the profiles."

2. I told the President I would be pleased to pass his comments on to those who did the work. I would appreciate it if you would do so.
