1. The Director will be briefing subject Board next week on the geopolitical strategic balance. The Director's briefing will be prepared based on a variety of talking points on individual subjects. Some of these are already underway as part of the Director's briefing of President-elect Reagan himself. There are some subjects, however, in your respective areas, for which nothing has as yet been done. [redacted]

2. Dick Lehman asked me to request that you provide me, by COB Monday, 17 November, 2- to 3-page sets of talking points on the following:

- State of the NATO Alliance (NIO/WE)
- Situation in the Caribbean (NIO/LA)
- Situation in Africa (NIO/AF)
- Chinese Economy and Leadership Situation (Acting NIO/EA)

In preparing these papers you may have need of soliciting inputs from cognizant production offices; nevertheless, what Dick would like is to have those inputs woven into a coherent briefing on each subject.
