reference(C)

EAVA 21085, 14 November 1958

Vladimir GAULICH

1. Subject of the Reference Awas contacted by during 7-9 November 1958 in Vienna. Meetings were held in various restaurants. Topics discussed with Subject are described below and in the attachments.

- Subject, by a twist of fate, chanced to meet Stefan HUPALO, the Ukrainian tourist from Lwov (see EGMA 38230, dated 30 October 1958) in Sorrento, Italy, and arranged for further contact in Rome on the next day (7 October 1958). Subject's information on his contacts with HUPALO are found in Attachment A.
- Regarding ECMA 38230, the record should be corrected regarding HUPAIC's contacts in Brussels. According to AECASSOWARY/3, he himself did not speak with POPALO but learned about HUPALO and the latter's interest in Basilian priests from Mrs. Taras SIMKIV, a Ukrainian emigre living in Munich who attempted to speak with all the Ukrainian tourists from the Ukrains who visited Brussels. Subsequently, she and AEDRUMMER/9 informed AECASSCWARY/3 of their individual contacts with HUPAIO.
- In view of the traces found below on MUPALO, Headquarters is requested to have AECASSOWARY/2 debrie? AEDRUMMER/9, after the latter's emigration to the United States from Paris in December 1958, regarding his talks with HUPALO and Irene WILDE. Please send the debriefing to VOB and MB.
- Cy A separate dispatch will be prepared on Iryna WILDE and her relationships with Rostyslav YENDYK of Munich. WILDE is reported to have told emigres at A separate dispatch will be prepared on Iryna WIIDE and her relationthe Pair that she is currently a representative to the Ukrainian government at Kiev. The Soviets mentioned her in econjunction with YENDYK in a September issue of the "Committee for the Return to the Homeland" newspaper and in a broadcast from Kiev during the same month.
 - The following are MB's traces on Stefan HUPALO:
- Forwarded herewith for VOB as Attackment C is a reproduction of EGMA 18500, dated 21 December 1955, an AECAPELIN/1 report regarding the brothers Walter and Peter HUPALO.
- "Born 3 August 1914, in B. An MB file card on Walter HUPALO reads: Christinopol (transliterated from the Ukrainian as Khrystynopol), Kreis Lemberg, Poland. (Living at) Munich, Ruppertstrasse 18. Former addresses: Hannover, Steinstrasse 9; Schladwing, Austria, Bezink Radotedt. Arrested 18 April 1947 in Brandenburg, probably for espionage. Returnee from USSR and Foland - POI/12/55/7. Ukrainian, returned with brother, Peter, to Munich from Polish concentration camp. Well-known to the SB (NOTE: BANDERA's Security Service). World War II was with German secret police as an officer, disappeared from Munich, in Hamburg in 1947."
- In view of Stefan MUPALO's remark, found in paragraph 1 of Attachment A, 1.e., that he is from Knrystonopol, and the fact that the above trace lists Walter HUPALO's POB as Khrystopopol, it is felt that Stafen HUPALO may be related to the brothersHUPALO of the about the brothersHUPALO of the about the HUPALO's story sounded genuine except for three
- points which Subject questions but which he was unable to clarify with HUPALO due to lack of time. These points are:
- A. HUPALO, a relatively poor person in terms of the Soviet economy, stated he possesses an automobile and travels extensively in the Ukraine.

- B. COTTEN STANSED TO YOUR EMBERGER SON EXPRENDED A ST. FROM CORNER STAN on or world war II and was released due to lack of evidence. Hurlic nas of disper regarding the compar involved to his surest. Subject hesitated to offer a concrete opinion since he does not know BURALO very well. However, Subject does not exclude the possibility that HUFELO may have excepted RIS recruitment of the factory for his freedom. Subject assesses HUFALO as having assesse investigence and a person whom he does not doubt would andough to (Soutot) Participates to avoid jeil.
- C. Subject finds it extremely interesting that the Seviets, who proband knew that HUPALO earlier was associated with the Busilian monke, would permit HUPALO to travel to the West unless the Soviets had their reasons for latting MUPALO make the trip.
- 6. Regarding VOB's possible use of Subject during the World Youth Conference. for PN or LCIMPROVE Londs (which points were not broached to Subject). Subject resealed the following: As the result of his discussions with ABCASSOWARY/27 in Brussels in September 1958, Subject was inspired to take steps to accredit binnelf as a journalist so that he can move freely emong the representatives to the soulerence. Subject volunteered further what in this method be may stribe to some valuable contacts and placed bimself at the dispuse of the ATS to there reserve. Subject hopes to obtain journalistic overelitation through the orn is. charge of the Ketolische Posses Agentur in Victoria.
- 7. Subject was given the accommodation address listed in RAVA 20005. However in august 1959, and he offered no objection to sending reports to the eddrone. His only qualification was that eather than exiting his reports in Bartish or Manadan he professed to type his metarial in the German Fanguage in view of his pour handwriting; further, he foew that, should my of his letters feld lose ervous hands, the type, if he need his Russins-Wissinian imponent typensider, may be traced to him. Subject was navised to section-take him envelopes and to pool two letters (not to an imponents address) wint he posted letters to the seconsudation address. (It was interesting to note that bubject deduced the reasons for these procedures without his being mivised the reasons.) Subject was brished on the type of information on which he should report (per paragraph 5 of Baya 20526). Toward the end, Subject stated he is absolutely willing to containure ate share in the effort against Communica. However, his only decire is that his mand, and therein what he represents, does not become involved publicly as re-
- B. An item which may be of interest to various Headquer tone deaks as the dect that the Basilian priests in Rore, in waking their decision to force the defection of MUPALO (later changing their plan), indicated they would clear their action with Italian authorities often the matter was a fait accompli (see Attachment A). It appeared to Subject that the Beallians exercised complete freedom in the matter and that there were no feers of recriminations from the side of Italian authorities. Subject was wordle to identify the Italian authorities in question; however, his opinion is that the Basilians in Home may meintain linison with the Italian IS.
 - Porwarded keresith are the following Attachments;
 - Subject's Contect with Stefan WIMMO (under separate cover). Miscellaneous Data obtained from Subject.

Copy of Ruch 18500, for YOR only, as mentioned in paragraph 34, above Chief of Base, Murich
