Remarks:

The FI allotments are effective through 30 June 1953 subject to current project approvals. The PP allotments are effective through 30 June 1953. Subsidy and proprietary projects usually require a current and approved Administrative Plan. Administrative overhead allotments are not included in this operational report. Some PP project allotments were reduced in accordance with the program of the President and the policy of C/SR. Cuts were cleared with branch chiefs. Provision was made for targets of opportunity and probable contingencies. FI projects will be reviewed for over-allotment in the same manner as PP projects. Obligations are lower than original estimates, in cases where projects developed slowly. Case officers are invited to consult with the Budget & Finance Section for mutual analysis of projects. Such comparisons have sometimes helped in operational review and direction.
